Did you know... CAFOD is working in some of East Africa's worst-hit drought regions? As the drought worsens, 8 million people are facing food and water shortages. In Kenya and Ethiopia, CAFOD is providing drought-resistant seeds to help farmers improve their harvests, and supplying feed so that farmers can keep their animals alive. CAFOD has also been building and improving wells and dams, so that people don't have to travel so far to collect water. Thank you for your continued support at this critical time.
